

# SOCIAL CHARTER

Re-affirming that the principal goal of SAARC is to promote the welfare of the peoples of South Asia, to improve their quality of life, to accelerate economic growth, social progress and cultural development and to provide all individuals the opportunity to live in dignity and to realize their full potential.

Recognising that the countries of South Asia have been linked by age-old cultural, social and historical traditions and that these have enriched the interaction of ideas, values, cultures and philosophies among the people and the States and that these commonalities constitute solid foundations for regional cooperation for addressing more effectively the economic and social needs of people.

Recalling that all Member States attach high importance to the imperative of social development and economic growth and that their national legislative, executive and administrative frameworks provide, in varying degrees, for the progressive realization of social and economic goals, with specific provisions, where appropriate, for the principles of equity, affirmative action and public interest.

Observing that regional cooperation in the social sector has received the focused attention of the Member States and that specific areas such as health, nutrition, food security, safe drinking water and sanitation, population activities, and child development and rights along with gender equality, participation of women in development, welfare of the elderly people, youth mobilization and human resources development continue to remain on the agenda of regional cooperation.

Noting that high level meetings convened since the inception of SAARC on the subjects of children, women, human resettlements, Sustainable developments, agriculture and food, poverty alleviation etc. have contributed immensely to the enrichment of the social agenda in the region and that several directives of the Heads of State or Government of SAARC Countries at their Summit meetings have imparted dynamism and urgency to adopting regional programmes to fully and effectively realize social goals.

Reiterating that the SAARC Charter and the, SAARC Conventions, respectively on Narcotic Drugs and Psychotropic Substances, Preventing and Combating Trafficking in Women and Children for Prostitution, Regional Arrangements for the Promotion of Child Welfare in South Asia and the SAARC Agreement on Food Security Reserve provide regional frameworks for addressing specific social issues, which require concerted and coordinated actions and strategies for the effective realization of their objectives.

Realizing that the health of the population of the countries of the region is closely interlinked and can be sustained only by putting in place coordinated surveillance mechanisms and prevention and management strategies.

Noting, in particular, that Heads of State or Government of SAARC Countries, at their Tenth Summit in Colombo in July 1998, re-affirmed the need to develop, beyond national plans of action, a regional dimension of cooperation in the social sector and that the Eleventh SAARC Summit in Kathmandu in January 2002 directed that a SAARC Social Charter be concluded as early as possible.

Convinced that it was timely to develop a regional instrument which consolidated the multifarious commitments of SAARC Member States in the social sector and provided a practical platform for concerted, coherent and complementary action in determining social priorities, improving the structure and content of social policies and programmes, ensuring greater efficiency in the utilization of national, regional and external resources and in enhancing the equity and sustainability of social programmes and the quality of living conditions of their beneficiaries.

The Member States of the South Asian Association for Regional Cooperation hereby agree to adopt this Charter:
